

Alison Morgan

Mount Sinai, NY · alisonlynnemorgan2@gmail.com · alisonlynnemorgan.com

Summary

Product leader with 10+ years building and scaling data products wherever customers build: APIs, webhooks, datasets, MCP for AI agents, Snowflake, Databricks, and open sharing. Grew the enterprise data business by 10% while putting its data marketplace on track for 2.5x revenue growth. Known for turning complex data problems into clear strategy, and for building teams with real ownership and trust.

Experience

AccuWeather

July 2025 - present (Remote)

Took on Head of Product scope in March 2026

Senior Product Manager, Enterprise Data Services Serving as Head of Product, Data Suite

July 2025 - present
March 2026 - present

- Grew the Data Suite from 20% to 60% of deal volume, tripling average deal size (~\$60K), delivering +10% YoY portfolio growth and \$1.53M in net new business in 2026 by partnering with a 25 person revenue team across BD, sales, and account management to standardize go to market playbooks, pricing, and terms.
- Increased Snowflake and Databricks marketplace listing click through rates 125% by rewriting listings around customer use cases and problems solved, and adding free trials.
- Led pre-sales solutions engineering, managing the Director of Solutions Engineering, supporting live deals and training reps on different data products, which shortened sales cycles to ~60 days.
- Increased \$25 paid plan conversions 50% by relaunching the self-service developer portal on a Zuplo gateway with Stripe, conversion-focused pricing, free trial nurture campaigns, and behavioral analytics.
- Shipped MCP support so developers can use weather APIs as context for LLMs, opening demand forecasting use cases in retail, CPG, logistics, and energy.
- Led cross functional engineering and data teams through user research, requirements, prioritization, competitive positioning, and launch for the Lightning Data Suite, generating ~\$800K in pipeline.
- Created a standard handoff process from product to product marketing (personas, use cases, differentiators, specs), speeding go to market launches to weeks and increasing sales accepted leads by 150%.

Candid

April 2020 - July 2025 (Remote)

Promoted 3 times in 5 years

Senior Director of Product Management

July 2024 - July 2025

- Drove 15% revenue growth and doubled API usage by relaunching Charity Check for California AB 488 compliance across SaaS, API, dataset, and third party platforms.
- Increased lead generation 200% by launching nonprofit data on Snowflake Marketplace and WRDS.
- Directed 3 product managers to unify data pipelines into a single real time data network for developers.
- Set OKRs with the Chief Data Officer to align and scale execution across a 40+ person product organization.
- Founded [Candid Labs](#), a rapid prototyping program for generative AI data products that serve nonprofits.
- Led 50+ developer interviews and 20+ customer roadmap reviews that shaped product prioritization.

Director of Product Management

July 2022 - July 2024

- Drove 64% revenue growth on Candid's \$10M data platform by shipping 22 major API and dataset releases with a 15+ person engineering team.
- Grew nonprofit demographics data usage 78,000% to 1.5 million annual API calls by standardizing delivery.
- Secured a \$365K Tableau Foundation grant to build a demographics dashboard for program officers.
- Hired 3 product managers and led a solutions engineering team supporting 150+ enterprise clients.
- Led go to market for API and dataset products, including sales enablement, developer documentation, user guides, and changelogs.
- Spoke as an expert panelist on nonprofit data and API ecosystems at 2 industry conferences (PEAK and TAG).

Candid (Continued)

Senior Platform Product Manager
Platform Product Manager

December 2020 - July 2022
April 2020 - December 2020

- Partnered with Apple's business development team to build the first API for compliant Apple Pay donations, achieving a 5,500% YoY usage increase.
- Modernized the developer platform including GraphQL, RESTful API, and .NET SDK products, driving 26% growth in monthly active users.
- Led 3 data analysts delivering custom datasets for 125+ clients, generating \$2.7M ARR.
- Released a natural language processing (NLP) API, improving market intelligence tools and real time notifications for nonprofit news, grants, RFPs, and advisories.

Broadridge Financial Solutions

Promoted 4 times in 5 years

January 2015 - April 2020 (Edgewood, NY)
